

2017-2018

Managing Contraception

14th EDITION

Less than 1 in 1,000 become pregnant when a Copper-T IUD is chosen by a woman as her emergency contraceptive

Where does ovarian cancer start and what implications does this have?

Can 2 condoms be used at once?

For how many years are Implants and IUDs effective?

2016 CDC Medical Eligibility Criteria

How was it that 75% of women in the St. Louis Contraceptive **CHOICE** Project chose to use an IUD or an Implant?

Robert A. Hatcher
Mimi Zieman
Ariel Z. Allen
Eva Lathrop
Lisa Haddad

IMPORTANT DISCLAIMER

The authors remind readers that this book is intended to educate health care providers, not guide individual therapy. The authors advise a person with a particular problem to consult a primary-care clinician or a specialist in obstetrics, gynecology, or urology (depending on the problem or the contraceptive) as well as the product package insert and other references before diagnosing, managing, or treating the problem. **Under no circumstances should the reader use this handbook in lieu of or to override the judgment of the treating clinician.** The order in which diagnostic or therapeutic measures appear in this text is not necessarily the order that clinicians *should* follow in each case. The authors and staff are not liable for errors or omissions.

Fourteenth Edition, 2017-2018
